

Quantum field theory I

ULB MA | 2023–2024 | Prof. Bernard KNAEPEN

Chapter 1: Description d'un fluide

Handwritten notes (scanned)

Antoine Dierckx • ant.dierckx@gmail.com

Heads up: only Chapter 1 here. This DocHub upload contains **only the first chapter**. The full set of chapters, personal notes, exercise corrections, and a reference-book list are on my website.

- **All chapters:** see the course page
- **Exercise corrections & personal work:** see the main page.
- **Reference books:** see the book section.

Get the rest: scan or click here
